

Climate Bulletin

A Quarterly Newsletter from Ghana Climate Innovation Centre

[ABOUT GCIC](#)

We are delighted to share with you the latest edition of the GCIC newsletter, your definitive source for insights and developments within our dynamic ecosystem.

In this edition, we shine a spotlight on one of our Cohort 7 businesses, Farmio Ltd, a pioneering agribusiness set to revolutionize the sector.

Furthermore, we invite you to explore GCIC's newest climate-focused documentaries, highlighting the remarkable achievements of Asa Nwura, also from Cohort 7 of the GCIC Business Incubator. Learn about the transformative solutions they are implementing to combat climate change.

In addition, we delve into a crucial topic: mental health and wellbeing for women entrepreneurs. Join us in exploring self-care in the fast-paced world of entrepreneurship.

We hope you find this edition both informative and inspiring. Thank you for your continued support of GCIC and our mission to drive innovation and sustainability in Ghana's business landscape.
